KEY PROJECTS AND ACCOMPLISHMENTS

To view the websites and source code go to: **http://jcyoder.github.io/**

The Kitchen Web Site
  This five page site uses HTML5 and CSS3 to demonstrate the use of HTML forms, a Google form, an embedded Google map, tables, iframes, @media for responsive design and a small amount of jQuery.

Todos Web Application
  Todos demonstrates the use of HTML5, CSS3, and jQuery to allow users to add, remove, edit, cross off, and filter todo list items.

Calculator
  This tool uses HTML5, CSS3 and JavaScript event handlers to create a basic calculator.

Colorado Travel
  Main page example showing the use of jQuery event handlers for menu/submenu navigation and the use of responsive design.

Adobe Suite Projects
- InDesign - 2015 calendar, magazine layout, 8 page booklet
- Illustrator - Building created with perspective tool, coffee mug drawn with pen and gradient mesh tools, playing card deck design, personal portrait
- Photoshop - Food Magazine cover, photo collage, posters

PROFESSIONAL EXPERIENCE

HEWLETT-PACKARD, Greeley/Fort Collins, CO   **1993- 2013**
  Sustained Engineering Lead for Windows Software (2013)
  Led the team to create processes for managing customer issues and pre-sales opportunities for a $182 million scanner software portfolio.
- Drove to completion prototypes and patches for current customers and "big deal" solutions for world-wide business opportunities ranging up to millions of dollars.
- Directed prioritization meetings to obtain cross-functional alignment.
- Managed off-shore developers and testers to achieve customer satisfaction and contract award goals.
- Debugged code written in C++ and MFC, verified fixes, and determined deployment strategy.
  .

  Scanner and Camera Product Engineer and Program Manager (1997-2013)
  Managed the requirements, schedule and software solution life-cycle for HP's market leading scanners and HP Photosmart cameras.

  Certified Scrum Master (2009-2012)
  Led the team transition from a waterfall product life-cycle to using Agile. Managed the Scrum process to ensure the Scrum values, practices and rules were enacted and enforced.

  Software Developer (1993-2003)
  Developed code and maintained components shipped with HP Scanjet Scanner solutions, HP Photosmart Digital Cameras, HP Personal and Photo Printers and HP All-in-One devices.
